7. A determination by the Contracting Officer that the anticipated cost to the Government will be fair and reasonable.

The cost saving are in the bulk purchase. The vendor is a reputable company which the cost will be reasonable. The estimate cost is based on market survey of similar products provided by among other vendors in Jakarta. Prices are about the same as those incurred elsewhere.

8. A description of the market survey conducted and the results or a statement of the reasons a market survey was not conducted. N/A
9. Any other facts supporting the use of other than full and open competition. In order to reduce expenses.
10. A listing of sources, if any, that expressed, in writing, an interest in the acquisition. N/A.
11. A statement of the actions, if any, the agency may take to remove or overcome any barriers to competition before any subsequent acquisition for the supplies or services required.

PAW will monitor the market trends, and research other products that fit our requirement for the best economically advantageous system to government future requirement.
